

Picture the scene. A coach load of holiday makers have just pulled up outside your cafe and they all want hot drinks. Well, with the FilterFlow Automatic Fill Electric Twin-Tap Water Boiler, this scenario is no longer a problem. Twin taps means twice the amount of hot water on tap, 24/7. Teapots can be filled twice as quick. Compact for limited spaces, the boiler comes with a built-in water filtration system which improves the water quality. The eco setting saves energy, and changing the high-volume cartridges is as easy as changing a lightbulb.
