Stainless Steel Multideck

The TEFCOLD Galaxy+ range, finished in mirror stainless steel: our latest innovation in plug-in multidecks. We've combined an expanded display area and optimised cabinet efficiency. The ultra-low front and slim top canopy provide an extra 100mm of internal height, accommodating up to 5 shelves (plus base) as standard, all while maintaining an overall height of just 2040mm. With a depth of only 740mm, the unit fits through standard doors for easy installation, yet has 400mm deep shelves for maximum stock capacity. Each unit comes with heavy-duty adjustable shelves that can be tilted if needed, as well as EPOS ticket strips and shelf risers as standard. Optional extras include glass end-walls and multiplexing kits.
