Chest freezer with two-piece lid

TEFCOLD FR SL freezers are a great choice not only for storing ice cream, but also for any other food you want to keep perfectly frozen. These freezers are equipped with three practical baskets that allow you to optimally arrange and organize your frozen contents. Your ice cream cups, sorbets, and other frozen treats will always be easily accessible and neatly stored.

A unique feature of this large chest freezer is that it comes with a two-piece stainless steel lid. This helps prevent the cold air from escaping, as you only need to expose half of the freezer to room temperatures when opening to grab something or restock. This also helps keep the energy consumption down. Both parts of the lid come with a lockable handle, ensuring your stored products are protected from unauthorized access.
